Custom Memorial - portrait design based on a photograph (price upon request)

SURFACES

MATERIALS & FINISHES

25-YEAR WARRANTY against rust-through on stainless steel, Corten steel, and coated raw steel.

STAINLESS STEEL

available in brushed or matte finish.

CORTEN STEEL

features a distinctive patina, often used in iconic architectural designs.

RAW STEEL

can be left untreated for a natural rusted look or powder-coated in any standard color.

Lifespan extended with galvanization and powder coating.

GALVANIZATION

applied under every powder coat as a protective layer for long-term durability.

POWDER COATING

final surface finish offering over 200 color options for maximum variety.

Natural durability guaranteed for all three wood typesm.

DOUGLAS FIR

a beautiful softwood from local forests. Ages to a silvery grey if left untreated. With minimal care, it lasts for decades.

OAK

a timeless, premium hardwood ideal for outdoor use. Durable and long-lasting with basic maintenance.

LARCH

a softwood commonly used in furniture. Ages to grey if untreated. Lasts for decades with care.

LIGHT PANEL

THE SPECIAL LIGHT EFFECT

LIGHT PANEL

Our light panel is usually made from the same material and in the same shape as the memorial plate. Other materials and shapes can be used upon request. A 4.7 inch gap separates the memorial plate and light panel. The panel is anchored using the same mounting system as the memorial plate.

ADDED VALUE OF LIGHT PANEL

At night, the panel shines beautifully using candles or solar LEDs. It lights up the memorial, radiates warmth, and feels like home. During the day, it adds impressive height and casts stunning shadows depending on the design and location - bringing extra life to the memorial.

MEMORIAL PANEL

INTERCHANGEABLE FOR MULTIPLE USES

INTERCHANGEABLE MEMORIAL PANEL

The interchangeable panel allows you to easily and affordably update names, dates, and inscriptions when a grave is used more than once. In the image, this section includes names, dates, and symbols. The panel is bolted on and can be installed in just a few minutes. Alternatively, you can replace the entire memorial.

BENEFITS OF AN INTERCHANGEABLE PANEL

The panel is attached using screws, which can be removed at any time when a new person is buried and another name needs to be added. In that case, you can design and order a new insert panel from us, and we'll ship it to you on request. There's no need to dismantle the full memorial - installation is simple, and you can do it yourself if you wish.

OUR GRAVE LAMPS

FOR THE GRAVE OR FOR AT HOME

Give your memory a place to belong - in just a few steps.
